

Going to work shouldn't mean stepping into this.

ARE YOU A VICTIM OF WORKPLACE VIOLENCE?

Have you or a colleague been assaulted at work?

Have you reported your incident?

Download the NSWNMA App and report your workplace violence incident.

The NSWNMA has a new tool as part of our NSWNMA Toolkit App that allows you to quickly report an incident to the Association as soon as it happens. It's an easy fillable form that you can submit from your mobile device and an officer of the Association will be in touch with you.

**Nursing is considered one of
the most dangerous professions.**

HELP STOP VIOLENCE AT WORK!

NSWNMA Toolkit App is FREE and available to download from iTunes and Google Play store
