+ BUST THE BUDGET

TONY ABBOTT & JOE HOCKEY have hurt their way into history with a slash and burn budget that's been called "inequitable," "painful," and full of "broken promises."

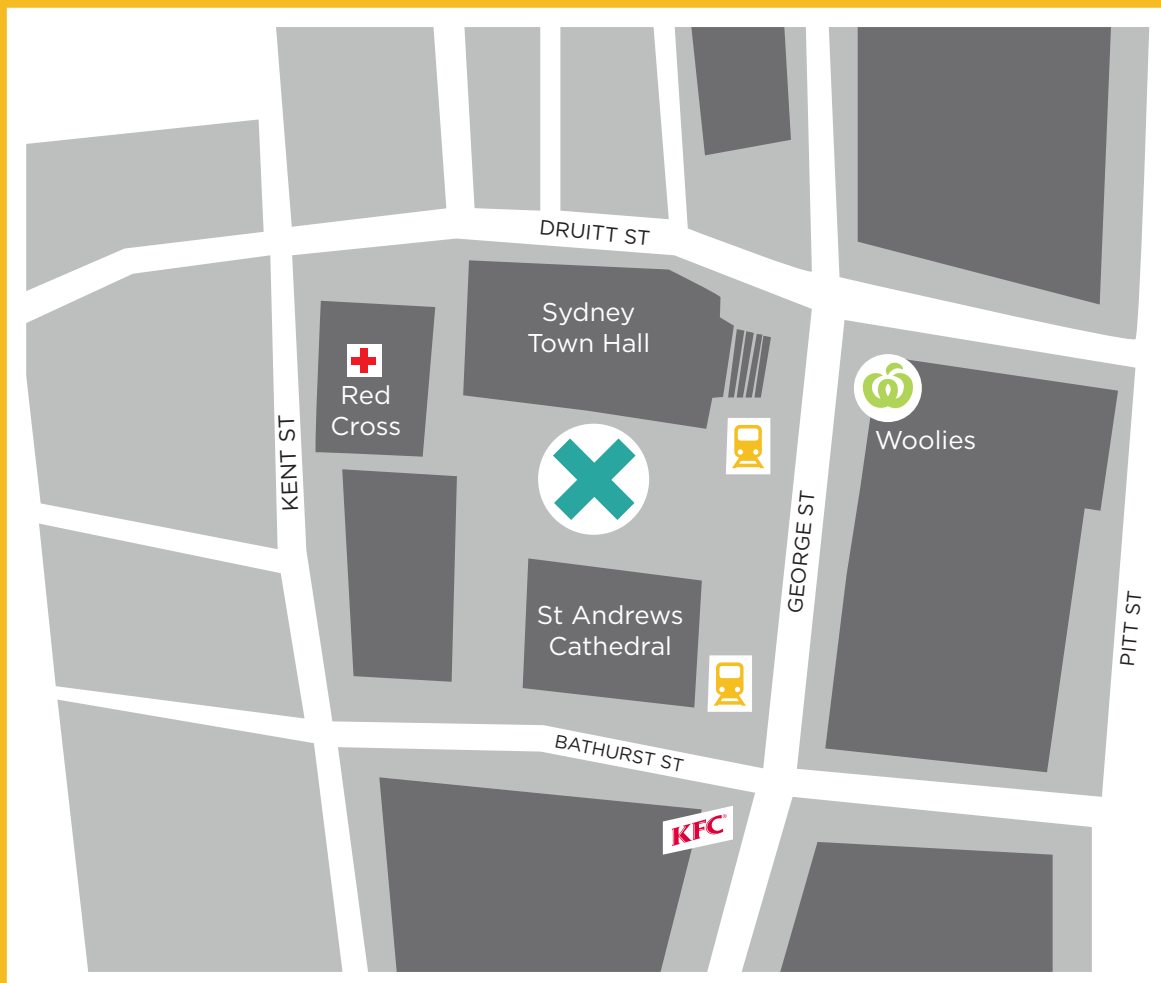

Their false claim that Australia needs to get back in the black has us seeing red - and we're not taking it lying down.

It's time to fight back against Abbott's budget attacks. The first step? A huge show of force as concerned citizens all across our state turn out for a massive rally on July 6th - the day before the new Senate

sits - taking a stand to make clear we won't accept Abbott's budget attacks on seniors, students and working people.

So mark your calendar and bring your friends, workmates, family - even your pets - down to Sydney Town Hall on July 6th at 12:45pm for the 1pm rally!
