(each course)

Lunch and refreshments provided

**Numbers strictly limited!**

## Medications: How we do it better

- Professional Obligations and Scope of Practice: what are your responsibilities and accountability with regards to medications;
- The process of the medication cycle and the stages that errors can occur;
- Revisit the principles of medication administration and unpack the areas that commonly have presented errors;
- Provide the importance of following policy and processes to maintain safety within the health care environment;
- S8 medications and your legal responsibilities around them.

We are offering an optional **SafeMedicate** online learning with this course so if you are able, please bring a laptop, tablet or phone capable of accessing the internet as we will be demonstrating the registration process on the day. If you do not have a device we will also be providing written instructions.

## Clinical Communication and Documentation

This workshop explores the importance of the legal and ethical frameworks around communication and documentation that govern nursing and midwifery practice.

- Understanding your obligations with professional standards in regards to documentation;
- The patient's records and what is documentation to provide a full story;
- Unpack clinical handover and the exchange of information and what the responsibilities and accountabilities are for nurses and midwives;
- ISBAR: learn how it helps with providing comprehensive health communication;
- Report writing: learn how to keep it simple but tell the whole story.
