Know where you stand with Law, Ethics and Professional Standards

This workshop explores the importance of the legal and ethical frameworks that govern our everyday practice under national registration.

- Cover the Australian legal system and laws that can effect nurses and midwives;
- Explore the co-regulatory system of nursing and midwifery within NSW;
- Breakdown how complaints and notification processes work within NSW;
- Unpack the confusion around consent;
- Gain a better understanding of where and how restraint can and cannot be used;
- Gain an understanding of ethics in our everyday practice;
- Develop a better understanding of how the Code of Conduct fits into your practice;
- The importance of documentation and escalation within the health care environment.

Your Annual CPD Obligations

In this ½-day seminar, revamped for 2019, you will learn the ins and outs of your annual CPD obligations.

- How to develop a learning plan each year;
- How you identify your learning needs and objectives, linking them back to your current or future context of practice;
- How to record your CPD activities;
- Gain an understanding of reflective practice;
- What to do if you get audited;

If you're still talking about "points", if you aren't sure why you would be required to develop a learning plan, or why you need to link your CPD activities to your context of practice, then this short course is an absolute must for you.

REGISTER ONLINE bit.ly/educationNSWNMA

Attendance at NSWNMA education sessions may count towards your Continuing Professional Development (CPD) hours. The number of hours noted beside each course is the maximum amount of claimable CPD hours. Unless otherwise noted, our courses are suitable for all Nurses, Midwives and Assistants in Nursing/Midwifery.
